Design Hotel NAVIS

Top-notch booking system for a top-notch hotel

Client and project information

Hotel Navis is not just another Hotel that one visits and soon forgets about.

Its coordinates take you to the most beautiful destination of your travels and tell the story of a place where time stands still, Istria ends and the sea extends deepest into Croatia. It is a place of inimitable style, first-class service and fantastic cuisine.

Solution

Experience starts at first visit

Our pride and joy

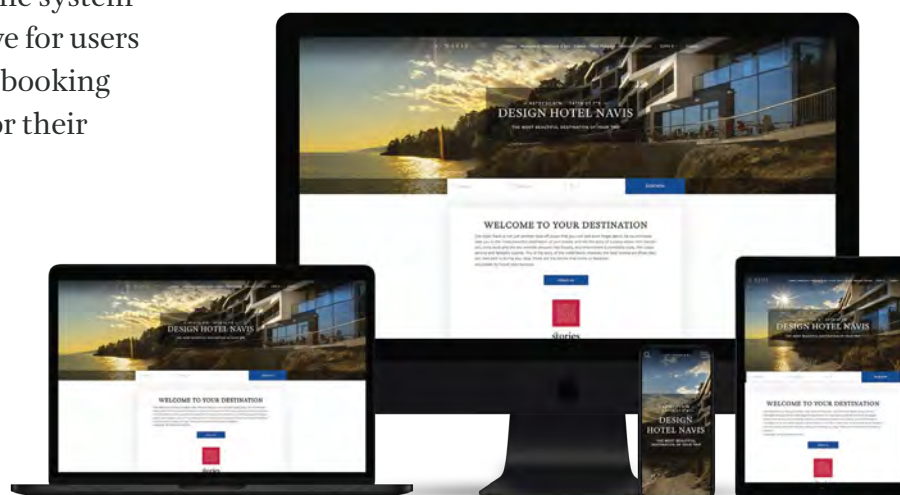

We are extremely proud to have collaborated with one of the finest hotels in the world - hotel Navis in Opatija. Since the hotel's interior is almost as impressive as its architecture, it was only fair to strive to make their digital presence equally as flawless. Hexis created a custom-made hotel booking system that is fully integrated with Navis's website.

Ease of booking

Both the website and the booking system are responsive and accommodation can be booked from mobile, tablet or a desktop computer.

The aim was to make the system so smooth and intuitive for users that the experience of booking actually set the tone for their stay at the hotel.

Result

Less work, more guests and a happy staff

Focus on guests

The platform was created specifically for the service industry and focuses on the guest. Naturally, the highest priority was security. As such, the system is secure, reliable and intuitive for both for the user and the hotel administrators.

The automatic price quotation system is based on the parameters of the user's inquiry (number of days, season, number of people, type of room). This means that site visitors get immediate information about price thereby allowing hotel staff to focus on other more valuable activities.

A blessing for the hotel staff

The hotel staff can dedicate their attention to the guest since all their booking platforms (such as booking.com, AirBnb, Atraveo, etc.) are synchronized in real time thereby minimizing the chance for double bookings.

All in all, the Hexis booking system results in less administrative work, less room for mistakes and more reasons to come to Navis!

➤ All in all, our booking system results in less administrative work, less room for mistakes and more reasons to come to Navis!

Software that **suits** you.

We care about the software. We speak your language. We make ideas come to digital life.
